Product Description

[vc_row][vc_column][vc_column_text]

- Free ground shipping in the continental US. - Stay tuned as our product line will continue to expand throughout 2020 - Please [email](#) or call 847-478-3313 to order the Fireside Roll or for a custom outdoor furniture consultation.] WHY HDPE? Fire and Feast furniture is constructed using 18-8 stainless steel fasteners, thus preventing corrosion and rust on furniture hardware and more... HDPE lumber stops hundreds of millions of plastic containers from entering the landfill waste stream through the production of recycled HDPE resin made from post consumer materials, thus supporting a net positive impact on the environment HDPE furniture is resistant to mold, mildew, and UV sunlight HDPE used in building Fire and Feast furniture does not splinter, warp, crack, or split, unlike wood HDPE is uniform in color throughout the material and is subject to minimal fading, thus eliminating the need to paint The only maintenance needed is an occasional seasonal wash with a hose, mild soap, and a soft brush to rinse accumulated dirt
