Product Summary

The Adirondack Glider offers a smooth, gentle ride, with all of the features of a stationary Fire and Feast Classic Adirondack Chair. Like the Fire and Feast Classic Adirondack, the Classic Adirondack Rocker is available in two different seat depths, the standard 16.25" for shorter individuals, and the grand seat depth which adds 3 inches of length and depth to the seating area for taller individuals.

The Fireside Roll incorporates all of the features of the Fire and Feast Classic Adirondack chair with the addition of a rolled front edge along the seat of the chair. This provides users with the added comfort of a gentle roll where the chair hits the back of the legs. The Fireside Roll is available in 20 solid colors, as well as a two tone combination of white and any other solid color. For any other color combination, select the option "Email or Call" from the dropdown list of colors below and you will be contacted by a Fire and Feast craftsman to discuss and confirm your custom color selection.

Product Description

[vc_row][vc_column][vc_column_text]

- Free ground shipping in the continental US. - Stay tuned as our product line will continue to expand throughout 2020 - Please [email](#) or call 847-478-3313 to order the Fireside Roll or for a custom outdoor furniture consultation.] WHY HDPE?

Fire and Feast furniture is constructed using 18-8 stainless steel fasteners, thus preventing corrosion and rust on furniture hardware and more...

HDPE lumber stops hundreds of millions of plastic containers from entering the landfill waste stream through the production of recycled HDPE resin made from post consumer materials, thus supporting a net positive impact on the environment HDPE furniture is resistant to mold, mildew, and UV sunlight

HDPE used in building Fire and Feast furniture does not splinter, warp, crack, or split, unlike wood

HDPE is uniform in color throughout the material and is subject to minimal fading, thus eliminating the need to paint

The only maintenance needed is an occasional seasonal wash with a hose, mild soap, and a soft brush to rinse accumulated dirt
