### Product Summary

The Fireside Family of Adirondack chairs is a modern adaption of an outdoor classic. Made from recycled HDPE material (90% post consumer plastic bottles) and stainless steel hardware, the Fireside holds up to year-round exterior use. This sturdy chair offers a curved back and a contoured seating surface to ensure comfort.

The Fireside Grand is the larger version of Fireside Adirondack chair with the addition of one slat on the seat of the chair. This provides longer legged or taller users with the added comfort of an additional 3 inches of seat depth. The Fireside Grand is available in 20 solid colors, as well as a two tone combination of white and any other solid color. For any other color combination, select the option "Email or Call" from the dropdown list of colors below and you will be contacted by a Fire and Feast craftsman to discuss and confirm your custom color selection.

Fire and Feast furniture is constructed using 18-8 stainless steel fasteners, thus preventing corrosion and rust on furniture hardware and more...

HDPE lumber stops hundreds of millions of plastic containers from entering the

landfill waste stream through the production of recycled HDPE resin made from post consumer materials, thus supporting a net positive impact on the environment  
HDPE furniture is resistant to mold, mildew, and UV sunlight

HDPE used in building Fire and Feast furniture does not splinter, warp, crack, or split, unlike wood

HDPE is uniform in color throughout the material and is subject to minimal fading, thus eliminating the need to paint

The only maintenance needed is an occasional seasonal wash with a hose, mild soap, and a soft brush to rinse accumulated dirt
